## The Premier Imaging Solution for Wholesale Lockbox

Everything you need for  
wholesale lockbox processing

- quick lockbox number entry and validation
- easily accessible instructions and payee lists
- continuous batch validation
- smart batch ticket printing
- support for ARC, Check-21 and Image Exchange

All this with unmatched  
efficiency and unbeatable quality

- converts sealed envelopes to electronic data in one step
- eliminates the loss of documents by opening and scanning mail on the same device
- minimizes exceptions by scanning every document at the beginning of the process
- allows continuous monitoring of transaction integrity and image quality

And remarkably the number one  
labor cost — document prep —  
is drastically reduced
